GitHub: ayanwar2627l (Priyanshu Jaiswal) Mobile: +91-6204894023

Skills

- **Languages**: Python, C, C++, JavaScript, Java, HTML5, CSS3
- **Frameworks**: Bootstrap, NodeJS, React
- **Databases/Tools**: MySQL, MongoDB, Git, GitHub, Visual Studio Code
- **Platform/Concepts**: RESTful APIs, OOP, Cloud Computing, Agile development, SDLC
- **Soft Skills**: Analytical Problem Solving, Team Collaboration, Project Management, Adaptability

Experience

- **GitHub Club, Lovely Professional University (LPU)**: Open-Source Contributor — Nov 2024 – Present
  - Contributed to 5+ open-source repositories, enhancing code quality and project documentation.
  - Collaborated with 50+ developers on version control using Git and GitHub workflows (branches, pull requests).
  - **Reviewed and debugged code**, minimizing merger conflicts by **20%** and improving overall team productivity.
  - **Organized and facilitated 3+ coding events and workshops**, promoting open-source engagement and peer learning.

Projects

- **CardWise – Credit Card Tracker and Manager|** GitHub — Sep 2024 - Oct 2024
  - Developed an expense tracker that optimizes reward utilization and reduces manual entry time by **40%**.
  - Integrated local storage and dynamic DOM updates for real-time expense visualization.
  - Designed an **auto-tracking system** that intelligently maximizes reward benefits and enhances user savings.
  - **Technologies Used:** JavaScript, HTML, CSS
- **HabitTrace - Personal Habit Tracker**| GitHub — May 2025 - Jun 2025
  - Engineered a **habit-tracking web app** enabling CRUD operations with **JWT-based authentication** and **MongoDB Atlas** for secure cloud data management.
  - Integrated **Chart.js visualizations** to display weekly performance analytics.
  - Implemented an intuitive user interface to promote daily engagement and progress tracking.
  - **Technologies Used**: MongoDB, Express.js, React.js, Node.js
- **HyperRush – Fashion E-commerce Platform**| GitHub — Jul 2025 - Dec 2025
  - Designed and developed a scalable fashion e-commerce application allowing users to explore, compare, and purchase apparel and lifestyle products smoothly.
  - Implemented advanced search functionality with category-based navigation and multi-criteria filtering to enhance product discovery and user experience.
  - Built secure and efficient RESTful APIs for authentication, inventory handling, and order lifecycle management.
  - Ensured optimized performance and modular architecture for maintainability and future scalability.
  - **Technologies Used**: MongoDB, Express.js, React.js, Node.js (MERN Stack)

Certificates

- Responsive Web Design | FreeCodeCamp — Oct 2023
- Bits and Bytes of Computer Networking | Google — May 2025
- Social Networks | NPTEL (IIT Madras) — Apr 2025
- Mern Stack Development | Cipher Schools — Jul 2025

Achievements

- Solved 500+ DSA problems on LeetCode and iamneo.ai, enhancing problem-solving efficiency by 35%.
- Earned 100 Days Badge and 2 Monthly Badges on LeetCode for consistent daily coding performance.

Education

- **Lovely Professional University** — Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering | ***CGPA: 8.38*** — *Aug 2023 - Present*
- **USM Public School** — Nangloi, Delhi
  Intermediate; ***Percentage: 78.2%*** — *Apr 2021 - Mar 2023*
- **St. Dominic Savio's High School** — Patna, Bihar
  Matriculation; ***Percentage: 90.2%*** — *Apr 2020 - Mar 2021*
